

## creative.unity

creative.unity is a program of b.unity that seeks every opportunity to make a social impact by providing youth with a safe environment to create, perform, document, and present their stories. Using the arts, mentorship and community collaboration, creative.unity works to address public health and social justice issues, promote change, and unify our communities.

creative.unity partners with DuPage County ACT-SO by mentoring their students in Performing Arts, Humanities, and Visual Arts categories to prepare for the competition & foster leadership & development skills.
